SUMMARY

I am a full stack developer with a vast array of knowledge in different front end and back end languages, responsive frameworks, databases, and best code practices.
My objective is simply to be the best web developer that I can be and to contribute to the technology industry all that I know and can do. While as a student at UIET, Panjab University Chandigarh, I did engineering in Information technology and I believe that my understanding of computers and problem solving are also skills that have and will continue to contribute to my overall success as a developer.
