SUMMARY

I am a full stack developer with a vast array of knowledge in different front end and back end languages, responsive frameworks, databases, and best code practices.
My objective simply is, to be the best web developer and to contribute to the technology industry to my full potential. While as a student at UIET, Panjab University Chandigarh, I pursued engineering in Information technology and I believe that my understanding of computers and problem solving are also skills that have and will continue to contribute to my overall success as a developer.
